

DEKALB® Corn
DKC49-73RIB Brand Blend

DKC49-73RIB Brand Blend is a 99 RM product that will get a quick start out of the ground and stand well late into the harvest season. It can provide solid agronomics and a strong disease package

Product Brand Characteristics

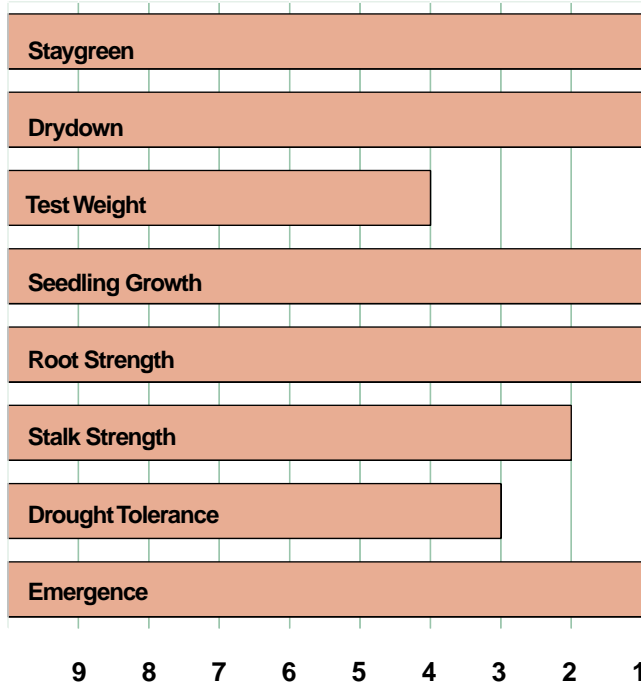

Category	Characteristic	Value
MANAGEMENT	Value Added Trait	VT2PRIB
	Processor Preferred®	HFC
	Relative Maturity	99
	GDUs to Mid-pollination	1266
	GDUs to Black Layer	2475
	Average for Maturity	1275
PLANTING	Planting Rate	M-H
	Emergence	1
GROWTH	Seedling Growth	1
	Root Strength	1
	Stalk Strength	2
	Drought Tolerance	3
	Greensnap	2
	Plant Height	M
	Ear Placement	M
HARVEST	Staygreen	1
	Harvest Appearance	1
	Drydown	1
	Test Weight	4
DISEASES	Northern Corn Leaf Blight	3
	Southern Corn Leaf Blight	-
	Gray Leaf Spot	4
	Eye Spot	3
	Common Rust	4
	Southern Rust	-
	Anthracoese Leaf Blight	3
	Anthracoese Stalk Rot	4
	Stewart's Leaf Blight	3
	Goss's Wilt	5
	Corn Lethal Necrosis	3
	Southern Virus Complex	-
	Headsmut	-
HERBICIDE	Growth Regulators Sensitivity	A
	Sulfonylureas Sensitivity	A
	Isoxazoles Sensitivity	A

Based on DEKALB® conducted trials. Relative to other DEKALB® brand products. Rating Scale: 1-2=Excellent, 3-4=Very Good, 5-6=Good, 7-8=Fair, 9=Poor. Traits for which no rating value is shown were not rated for this product.

DKC49-73RIB Brand Blend

99-DAY RM

Key Strengths

- Nice defense with competitive top-end yield potential
- Has shown consistent performance across yield environments
- Has shown very good stalks and roots
- Very good emergence and seedling vigor
- Nice stature for the Western Corn Belt

Plant Description

- Leaf Color: Dark Green
- Silk Color: Green - Yellow
- Anther Color: Pink
- Kernel Row: 16-18
- Kernel Cap Color: Deep Yellow
- Cob Color: Red

Management Tips

- Plant across any acre but yield potential can be best in higher yield environments
- Drought stress tolerance has shown to be average
- Plant at higher populations to get best performance
- Avoid areas with a history of high Goss' Wilt pressure
- Plant in cold soils with confidence and leave in the field until last

DEKALB® Corn Legend

Value Added Traits:

- SS = SmartStax® corn
 SSRIB = SmartStax® RIB Complete® corn blend
 VT2P = VT Double PRO® corn
 DGV2P = DroughtGard® Hybrids with VT Double PRO® corn
 VT2PRIB = VT Double PRO® RIB Complete® corn blend
 DGV2PRIB = DroughtGard® Hybrids with VT Double PRO® RIB Complete® corn blend
 VT3P = Genuity® VT Triple PRO® corn
 DGV3P = DroughtGard® Hybrids with Genuity® VT Triple PRO® corn
 VT3PRIB = Genuity® VT Triple PRO® RIB Complete® corn blend
 DGV3PRIB = DroughtGard® Hybrids with Genuity® VT Triple PRO® RIB Complete® corn blend
 RR2 = Roundup Ready® Corn 2
 TRE = Trecepta™ corn
 TRERIB = Trecepta™ RIB Complete® corn blend

HFC = **Processor Preferred® High Fermentable Corn** exhibits the characteristics desired by dry mill ethanol plants 

HES = **Processor Preferred® High Extractable Starch** exhibits the characteristics desired by wet millers 

Codes:

- L = Low
 S = Short
 M-S = Medium-Short
 M = Medium
 M-MH = Medium-Medium High
 M-H = Medium-High
 MH-H = Medium High-High
 M-L = Medium-Low
 M-T = Medium-Tall
 T = Tall
 H = High
 R = Resistant
 S = Susceptible

GDU (Growing Degree Unit):

Although maturity of one corn product relative to another remains reasonably constant, the actual number of calendar days from planting to any given point of plant development varies with temperature, day length, rate and date of planting, soil fertility and other environmental factors. All GDU values calculated are from the time of planting.

Rating Scale:

- 1-2 = Excellent 3-4 = Very Good
 5-6 = Good 7-8 = Fair
 9 = Poor

The ratings are approximate and should not be considered as absolute. Based on Monsanto conducted trials relative to other Asgrow and DEKALB brand corn.

Diploia Ear Rot Rating Scale:

- AA = Above Average
 A = Average
 BA = Below Average

Herbicide Class Ratings:

Ratings are based on observations and research using herbicides at and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

A = Acceptable

Either no adverse effects from the corn product/herbicide combination were noted on any traits or only slight damage could be noted under adverse conditions or herbicide application at higher than label rates.

C = Caution

The corn product/herbicide combination is usually not a problem if sprayed according to label directions, but can result in plant height reduction, stand loss and suspected yield loss under very adverse environmental conditions, high rates, or extreme soil pH levels or organic content. Use drop nozzle spraying for postemergence herbicides or plant in warm soils for incorporated herbicides to avoid interactions.

W = Warning

Not advised - this corn product/herbicide combination should not be used under any circumstances.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. SmartStax® RIB Complete® corn blend is not allowed to be sold for planting in Cotton-Growing Area. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready technology contains genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate. DroughtGard®, Genuity®, Genuity Design®, Processor Preferred and Design®, RIB Complete and Design®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, Roundup®, SmartStax and Design®, SmartStax®, Trecepta™, VT Double PRO®, VT Triple PRO® and YieldGard VT Triple® are trademarks of Monsanto Technology LLC. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
