

# PIVOT BIO PROVEN™ VALUE PROPOSITION

PREDICTABLE, PRODUCTIVE, WEATHERPROOF = GREATER ROI

PREDICTABILITY, PRODUCTIVITY AND THE WEATHERPROOF NATURE OF PIVOT BIO PROVEN™ ALL ADD UP TO BENEFIT A GROWER'S BOTTOM LINE.

## PREDICTABLE

Adhering directly to the roots, Pivot Bio PROVEN™ predictably applies nitrogen daily throughout critical growth stages.

+

## PRODUCTIVE

Level out performance across various soil types and topography.

+

## WEATHERPROOF

Pivot Bio PROVEN™ stays put – weather or not. It is not susceptible to runoff, leaching, or denitrification like synthetic nitrogen products.

## RETURN ON INVESTMENT

Get what you pay for... benefit from nitrogen applied to the plant as opposed to the field. Eliminate costly nitrogen loss and potentially reduce expense and in-season passes across the field.
