

SOYBEANS SEED

AG14XF4 Brand

Brand

Asgrow® AG14XF4 brand is a 1.4 RM XtendFlex® soybean with adaptation across maturity group 1 growing regions. AG14XF4 offers defensive traits for protection against yield loss from important soybean diseases including Phytophthora, white mold, and brown stem rot.

Selected Trait: **XtendFlex**

XF

Maturity **1.4**

Strengths

- Medium tall plant with good standability
- Resistance to soybean cyst nematode
- Rps1c gene for Phytophthora rot protection
- Average tolerance to iron deficiency chlorosis

National Rating Scale

1 = Excellent, 9 = Poor, NR = Not Recommended, - = data is insufficient at this time.

Herbicide Sensitivity

A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

Herbicide Tolerance

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

GDU (Growing Degree Unit)

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.
