

SOYBEANS SEED

AG29XF3 Brand

Brand

Asgrow® AG29XF3 brand is a late group 2 XtendFlex® soybean. This product offers high yield potential, good standability, resistance to soybean cyst nematode, and multi-race Phytophthora protection from the Rps1c resistance gene.

Selected Trait: **XtendFlex**

XF

Maturity **2.9**

Strengths

- Average plant height and good standability
- Resistance to SCN
- Very good tolerance to Phytophthora rot
- Average tolerance to white mold
- Avoid placement in fields with a history of severe sudden death syndrome

National Rating Scale

1 = Excellent, 9 = Poor, NR = Not Recommended, - = data is insufficient at this time.

Herbicide Sensitivity

A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

Herbicide Tolerance

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

GDU (Growing Degree Unit)

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.
