

CORN SEED

# DKC107-33RIB Brand Blend

## Brand Blend

DKC107-33RIB Brand Blend is a SmartStax® PRO Technology product that has shown excellent performance potential across most corn growing environments in the 105RM and early 110RM zones. This medium statured plant offers a strong agronomic package and very good emergence package.

Selected Trait: **SmartStax® PRO® RIB Complete® corn blend**

SSPRIB

Maturity **107**

## Strengths

- Has displayed strong yield potential across most yield levels
- Product has shown excellent yield to moisture ratio with ability to perform south of zone
- Excellent agronomic package combines solid root strength, stalk strength and greensnap tolerance
- Semi-fixed ear type; product has shown a positive response to increasing planting densities
- Product has demonstrated a positive response to in crop use of foliar fungicides
- Has shown very good emergence and seedling vigor for an early planting option
- Average staygreen and harvest appearance has been exhibited by this product
- Caution on Southern Rust tolerance when used in impacted geographies

## Product Details

### Disease Ratings (Gray Leaf Spot + 5 More)

**Growth** (Seedling Growth + 7 More) ^

<b>3</b> Seedling Growth	<b>2</b> Emergence Excellent	<b>2</b> Root Strength Excellent
<b>3</b> Stalk Strength	<b>3</b> Drought Tolerance	<b>2</b> Greensnap Tolerance Excellent
<b>Medium</b> Plant Height	<b>Medium</b> Ear Placement	

**Management** (Gdus To Mid-Pollination + 6 More) ^

Use with management

NOT Recommended

 New Product

### **National Rating Scale**

1 = Excellent, 9 = Poor, NR = Not Recommended, - = data is insufficient at this time.

### **Herbicide Sensitivity**

A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

### **Herbicide Tolerance**

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

### **GDU (Growing Degree Unit)**

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.
