

CORN SEED

DKC111-30 Brand

Brand

DKC111-30 Brand is a 111 RM product that has shown high yield potential, broad adaptability, and strong agronomics. Additional features of this product include excellent grain quality, Southern Rust tolerance, and root strength.

Selected Trait: **Conventional**

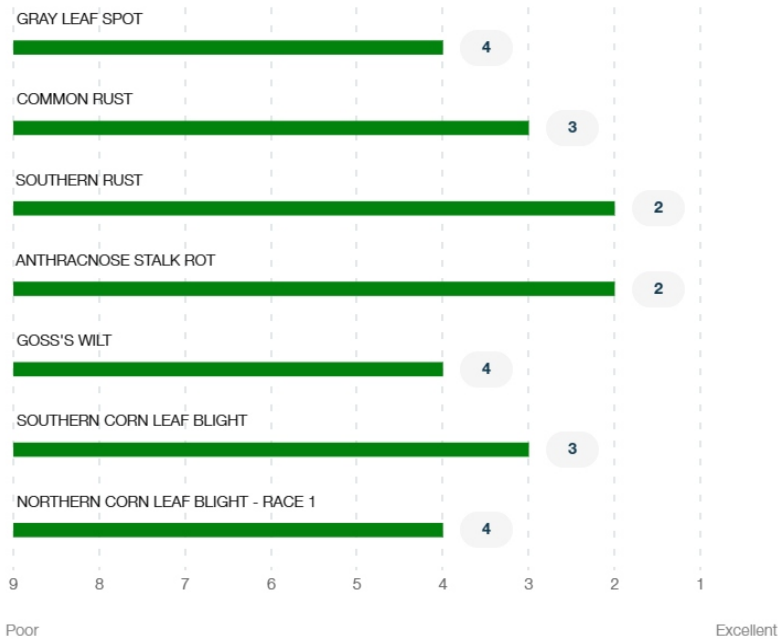

Maturity **111**

Strengths

- Broadly adapted product that has shown high yield potential with movement north and south of zone
- Attractive, medium-tall statured plant features a semi-flex ear type with excellent test weight and good tip fill
- Medium-high plant populations are recommended for best results
- Impressive agronomic package with solid root strength, stalk strength, and greensnap tolerance
- Very strong Southern Rust tolerance

National Rating Scale

1 = Excellent, 9 = Poor, NR = Not Recommended, - = data is insufficient at this time.

Herbicide Sensitivity

A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

Herbicide Tolerance

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

GDU (Growing Degree Unit)

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.
