

CORN SEED

DKC50-88RIB Brand Blend

Brand Blend

DKC50-88RIB Brand Blend has shown excellent yield potential with performance stability centered on the 100RM band; very good northern movement into the 95RM and southern movement into the early 105RM zone. It can provide very good stalk and root strength for late season standability. This hybrid has exhibited an excellent late season harvest appearance with grain quality and test weight.

Selected Trait: **VT Double PRO® RIB Complete® corn blend**

VT2PRI8

Maturity **100**

Strengths

- Very good emergence and seedling vigor for early planting
- Excellent grain quality and test weight
- Product has shown a girthy semi-fixed ear type
- Has performed well on rotated ground as well as corn following corn
- Excellent late season intactness and harvest appearance
- Very good stalk and root strength
- Has shown favorable drought tolerance
- Hybrid has demonstrated versatility across planting population but recommend medium high density to maximize yield potential
- Avoid using in heavy Goss's Wilt prone fields
- Potential for dual purpose silage usage

National Rating Scale

1 = Excellent, 9 = Poor, NR = Not Recommended, - = data is insufficient at this time.

Herbicide Sensitivity

A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

Herbicide Tolerance

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

GDU (Growing Degree Unit)

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.
