

CORN SEED

DKC52-99RIB Brand Blend

Brand Blend

DKC52-99RIB Brand Blend is a 102 RM hybrid that can provide outstanding performance potential broadly East to West in the 100RM zone. South of zone utilization has also shown to be favorable with good heat and drought stress tolerance.

Selected Trait: **Trecepta™ RIB Complete® corn blend**

TRERIB

Maturity **102**

Strengths

- Good stalk and root strength has been shown with this product
- Has shown very good performance stability; ear consistency and very good kernel depth
- Very good greensnap tolerance and good Goss's Wilt tolerance for Western movement
- Can provide excellent heat and drought stress performance
- Manage as an early harvest type of product for best product utilization
- Caution in field placement where heavy Northern Corn Leaf Blight pressure is present
- Has shown response to increasing crop management as it relates to seeding rates, fertility, and fungicide
- Use caution when applying pigment inhibitors type herbicides PRE

National Rating Scale

1 = Excellent. 9 = Poor. NR = Not Recommended. - = data is insufficient at this time.

Herbicide Sensitivity

A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

Herbicide Tolerance

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

GDU (Growing Degree Unit)

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.
